

RESUME

Summary

I have a cheerful personality, in my work I am serious, responsible, with a strong sense of duty and enterprising spirit.

I am quick-witted, not afraid of hard work, have a strong comprehension ability, can handle team relationships well, and have a strong sense of teamwork. I can also bear necessary work pressure.

I am full of anticipation for the design industry.

Key Skill

- Research Statistics
- User Interface Design
- Interaction Design
- User Experience Design
- Product Design
- Working Chemistry Knowledge
- Generative Artificial Intelligence

Software Skill

- Figma
- Miro
- Z Brush
- Cava
- Python
- HTML/ CSS/ JavaScript
- Microsoft Office

Education

1. Qingdao University of Science and Technology, 2025

Bachelor of Engineering (Polymer Science and Engineering)

2. Singapore University of Technology and Design, 2026

Master of Science in Technology and Design (Human-Centred Design)

Qualification

1. ENGLISH CET-4
2. Driver's License

Work Experience

1. Research Assistant

Qingdao University of Science and Technology

I worked in a laboratory led by Professor Zhou Lijuan for 12 months. The lab focuses on the synthesis and performance testing of polyurethane. The laboratory provided technical support for China local PPE manufacturer. ([Xingyu Gloves](#))

- Material production of
- Performance testing

I also actively participated in large-scale seminars and was active in lab and organization activities.

2. Sales Assistant

Yunnan Branch of Southwest Securities Co., Ltd.

- In in-store sales and on-site sales
